Spinal Cord Injury CDE Revision History Document

CRF Module/ Guideline	Current Version*	Previous Version	Change Classification	Change Type	Description of Change
All	1.0	1.0	Minor	Modified CDEs	Date', 'Time', and 'Time type value' CDEs capturing a single point in time were merged into one 'Date and Time' element. For example, 'Date of Birth', 'Time of Birth', and 'Time Type Value' became 'Date and time of birth'. The instructions for date and time elements specify that the data should be recorded to the level of detail known.
All	1.0	1.0	Minor	Modified CDEs	CDEs that allowed free text to specify an answer of "Other" were merged into the preceding element.
Various	1.0	1.0	Minor	Deleted CDEs	The following types of CDEs were deleted: CDEs redundant with other CDEs; CDEs specifying unit; and CDEs specifying an "other, specify" response
Various	1.0	1.0	Minor	Modified CDEs	Population information was added to be consistent with other NINDS CDEs
Various	1.0	1.0	Minor	Modified CDEs	Similar indicator questions were consolidated from multiple CDEs into one CDE with multiple permissible values (i.e., one permissible value representing each original indicator question)
