Florida Obsessive Compulsive Inventory (FOCI)**

<b>Availability:</b>	<b>Please visit this website for more information about the instrument:</b> <a href="http://icahn.mssm.edu/research/centers/center-of-excellence-for-ocd/rating-scales">http://icahn.mssm.edu/research/centers/center-of-excellence-for-ocd/rating-scales</a>
<b>Classification:</b>	Supplemental
<b>Short Description of Instrument:</b>	<p><b>Summary/Overview of Instrument:</b> Self report questionnaire that has Checklist for symptom enumeration and Severity Scale.</p> <p><b>Construct measured:</b> Obsessions and compulsions.</p> <p><b>Generic vs. disease specific:</b> Generic.</p> <p><b>Intended use of instrument/ purpose of tool:</b> Evaluation of severity of obsessive and compulsive symptoms.</p> <p><b>Means of administration:</b> Paper and pencil, electronic online version available.</p> <p><b>Location of administration:</b> Clinic or home.</p> <p><b>Intended respondent:</b> Patient.</p> <p><b># of items:</b> Checklist (20 items), Severity Scale (5 items).</p> <p><b># of subscales and names of sub-scales:</b> 2 – Checklist and Severity Scale.</p>
<b>Psychometric Properties:</b>	<p><b>Reliability:</b> Test-retest or intra-interview (within rater) reliability (as applicable): N/A Inter-interview (between-rater) reliability (as applicable): N/A Internal consistency: very good, alpha = 0.89. Statistical methods used to assess reliability: Not available.</p> <p><b>Validity:</b> Content validity: Not available. Construct validity: Very good; high correlation with Yale Brown Obsessive Compulsive Scale. Not available.</p> <p><b>Sensitivity to Change/ Ability to Detect Change (over time or in response to an intervention):</b> Aldea et al, 2009- Severity Scale showed lower scores over time in response to an intervention.</p> <p><b>Known Relationships to Other Variables:</b> (e.g. gender, education, age, etc): N/A.</p> <p><b>Diagnostic Sensitivity and Specificity, if applicable:</b> (in general population, HD population- premanifest/ manifest, other disease groups):</p> <p><b>Availability</b> (copyright): Available for free online but note: The FOCI cannot be reprinted, reproduced or modified without written permission of Dr. Goodman wayne.goodman@mssm.edu. Likewise, those individuals interested in clinical or research use of the FOCI need to obtain permission from Dr. Goodman.</p> <p><b>Special Requirements for administration:</b> None.</p> <p><b>Administration Time:</b> 15-20 minutes.</p> <p><b>Translations available</b> (e.g. Spanish, French, Other languages): N/A.</p>
<b>Scoring:</b>	<p><b>Scoring:</b> For Checklist: yes or no responses, no total score, just rating presence of a symptom; For Severity Scale, add total for items 1-5 to get severity measure.</p> <p><b>Standardization of scores to a reference population</b> (z scores, T scores, etc): Not available.</p> <p><b>If scores have been standardized to a reference population, indicate frame of reference for scoring</b> (general population, HD subjects, other disease groups, etc): N/A</p>
