### Wechsler Abbreviated Scale of Intelligence® - Second Edition (WASI-II)

| Availability | Please visit this website for more information about the instrument:  
|--------------|--------------------------------------------------------------------------|
| **Classification:** | **Basic**: Acute Hospitalized TBI, Concussion/Mild TBI, Moderate/Severe TBI: Rehabilitation Traumatic Brain Injury (TBI)  

**Supplemental**: Epidemiology TBI  

**Supplemental**: Cerebral Palsy (CP), Epilepsy, Mitochondrial Disease (Mito), Multiple Sclerosis (MS), Myotonic Dystrophy (DM), Neuromuscular Disease (NMD)  

| **Short Description of Instrument:** | The WASI-II, a revision of the WASI, is a quick, reliable measure of intelligence for use in clinical, educational, and research settings. The WASI-II revision maintains the format and structure of the WASI and provides greater clinical utility and efficiency by offering new content and improvements. Building on the WASI, the WASI-II provides updated versions of the WASI Vocabulary, Similarities, Block Design and Matrix Reasoning subtests; four- or two-subtest administration versions; and strengthened connections with both the WISC®-IV and WAIS®-IV.  

**Administration options**: Four-Subtest Form (Vocabulary, Similarities, Block Design, Matrix Reasoning); Two-Subtest Form (Vocabulary and Matrix Reasoning)  

**Administration**: Paper-and-pencil, individual, face-to-face, requires examiner training.  

**Completion Time**: Four-subtest form, 30 minutes; Two-subtest form, 15 minutes  

**Publication Date**: 2011.  

**Ages / Grades**: Individuals 6:0–89:11.  

**Norms**: The standardization of the WASI-II was conducted from January 2010 to May 2011 on a nationally representative sample of approximately 2,300 individuals aged 6–90.  

**Advantages**: Provides a quick but reliable and valid estimate of IQ when administration of a full battery is not feasible or necessary; particularly useful for research applications; easy to learn and administer.  

| **Scoring/Interpretation** | VCI, PRI, and FSIQ scores (FSIQ–4 and FSIQ–2)  

| **Scoring Options** | Manual scoring |
